CONSERVATORY ROOF SOLUTIONS

ABOUT US

We are simply the highest quality replacement conservatory roof provider in the UK

With over 50 years combined experience within the external home improvements industry. Homestyle is an independent family run company with a real passion for enhancing the look and feel of your home.

We take tremendous pride in the quality of our work, for that reason we never use any sub-contractors. We will be the only people you work with from the first initial quotequote all the way through to final installation.

OUR SERVICES

We operate nationally specialising in the design and installation of light weight replacement conservatory roofs, awnings, and bi-folding doors. By using only the finest quality raw materials and components, all Homestyle products deliver the very best in weathproofing and aesthetics.

AWNINGS

CONSERVATORY ROOF REPLACEMENT

We offer only the very best solution when it comes to replacing your old conservatory roof. Our tried and tested solution replaces the whole of your existing roof with a new, state of the art, extra lightweight tiled conservatory roof.

You will benefit from a highly energy efficient roofing system that has been specifically designed for you to enhance your living space. Due to its fully insulated design features your conservatory will be warm in the winter as the heat loss is reduced, and cool in the summer as

the heat is not transferred directly through the roof. As every roof we design is completely bespoke we always have to physically see your current conservatory, we will not only assess the style and measurements but check its structural soundness to change the roof and fully understand if there would be any installation complications.

The end result is truly breath taking - simply contact us today to arrange a free no obligation design consultation.

ROOFING STYLES

Our lightweight weight replacement conservatory roof solution can be installed on practically any conservatory. Please see below for the some of the more popular style's:

VICTORIAN

Suiting both period properties and new builds, the victorian is probable the most popular style of conservatory.

THE DOUBLE-HIPPED

It's roof appearing on both sides of conservatory extension, rather than having a flat face connecting to the wall.

EDWARDIAN

A popular design known for its versatility and traditional look, features a high ceiling allowing you to maximise the floor space.

GABLE-END

Known for maximising light coming into the room, with the front of the gable often resembling the rising of the sun.

ROOFING TILES

EXTRA LIGHT ROOF TILES (STANDARD)

Extralight's extensive research and development in the design process ensures every Extralight product is manufactured to the highest quality with exceptional durability and strength. The tile profiles and roofing accessories are engineered to interlock and overlap to resist wind lifting and keep out the harsh elements.

The perfect replacement for your old existing roof letting you improve the look and value of your home.

TAPCO ROOF TILES (PREMIUM)

For centuries, slate roofing has been desired for its durability and beauty. With authentic surfaces and edges, Tapco Slate highlights the handsome character of slate, at the same time enhancing roof performance through innovative design. Unlike natural slate, Tapco Slate won't break or delaminate and comes with a Limited Lifetime Warranty.

The perfect replacement for your old existing roof letting you improve the look and value of your home.

FINISH'S

We have a range of finish's to beautifully compliment your home and give you that all year round living space feel. Along with our range of internal finishing methods, you may also choose a vaulted or lowered flat ceiling finished with integral lighting.

INTERNAL PLASTERED CEILING

The most popular internal finish, a fully boarded and plaster coated interior with a range of lighting options.

TONGUE & GROOVE

A quality tongue and groove boarded ceiling also with a range of lighting options.

EXTERNAL ROOF VENTS

These well-designed centre pivot vents allows the sash to be opened in a range of positions, thus increasing the amount of fresh air which can be drawn into the room.

WHAT OUR CLIENTS SAY?

“Excellent service from start to finish. Very happy with our new conservatory, we have never used it so much in 20 years. Would recommend to everyone to have it done”
